

The Easiest Way of Content Sharing

Combining a self-built 5G Wi-Fi, WPP20, the wireless presentation pod, partners up with Yealink new-generation video conferencing system to offer high-quality wireless content sharing with just one tap. Working with Yealink video conferencing system, the embedded meeting assistant software of WPP20 offers rich conference control functions, such as record or manage your video conference at once. Wireless deployment helps you escape from the wiring troubles, and integrated with an interactive touch screen puts remote control at your fingertips. Also, up to 8 devices can be connected at a time, providing you ultimate collaboration experience with low-latency content sharing.

Key Features and Benefits

Plug and Play, One-click Presenting

With Yealink self-built 5GHz 802.11ac Wi-Fi network and its perfect anti-interference capability, no routers or extra network configuration required, WPP20 has low dependence to the business network and makes sharing smooth and easy. WPP20 packs it with a universal USB port, plug and play, and any other additional software is unnecessary. To minimize the deploy cost, this pod is designed to let you skip messy cables and the hassle with interface adaptation, saving your time from setting-up additional wires between TV and conference table.

Low Latency, Multipoint FHD Sharing

Immediate response, smooth and trouble-free presenting, 1080P@30fps FHD and low-latency content sharing, all of these allow you to enjoy an excellent collaboration. Meanwhile, one video conferencing system can simultaneously connect up to eight WPP20 and up to four content streams can be presented simultaneously on the main screen.

Plug into Rich Control Function

Integrated with Yealink video conferencing system, the embedded meeting assistant software has completely wiped out the remote controller, offering you rich meeting control functions, such as meeting recording, conference management and video conferencing endpoints control.

Multi-Platform Supported

Yealink wireless presentation solution covers all devices you are using, simply tap the button to share from your MacBook or Windows laptop, or via Airplay from you iPhone/iPad at once.

Intuitive Remote Control from Interactive TV

Integrated with 3rd-party touchscreen displays, WPP20 puts intuitive remote control at your fingertips, that you can easily control the devices by clicking or dragging on your interactive TV.
