

Room Display

The Room Display is a digital signage collaborating with Yeastar Workplace to display meeting room availability in real-time and book meetings on the spot. Mounted at the entrance of a meeting room, it shows room status through a side LED indicator. Feel free to customize the color signals to fit your office ambiance from 16 color options in the system. A 10.1" LCD touch screen supports reserving on the spot and meeting check-ins & check-outs. Custom branding is also available to set up your company logo and background image that appear on the screen.

- Collaborates with Yeastar Workplace: display meeting schedules, start an ad-hoc meeting, check-in & check-out, extend meetings
- Traffic light LED indicator on the side color signals meeting room status
- Works with People Counting Sensor to update in-room attendees in real-time
- Managed and monitored remotely by the cloud-based Yeastar Workplace platform
- Support Energy Saving Settings
- Hide/show meeting topic/organizer flexibly
- Plug-and-play PoE or DC power
- Provides easy installation and flexible mounting options
