

## CONTROL YOUR GROUP COLLABORATION EXPERIENCES WITH CONFIDENCE

### BENEFITS

- Take the frustration out of starting and controlling video calls.
- Connect quickly and easily through the home screen calendar, easy to access speed dials, and more.
- Maximize meeting comfort by positioning it upright or in a lower profile based on the needs of the room.
- Sleek design with integrated Power over Ethernet adds style to any meeting space.

### REALPRESENCE TOUCH

RealPresence Touch is a touch interface for RealPresence Group Series and Immersive Telepresence solutions. The simple and intuitive design lets you focus on your conversations instead of the technology. The design is consistent across the Poly portfolio, whether you're calling from a conference room or using a Poly desktop, mobile or web client. RealPresence Touch makes it easy to use video collaboration from any environment, with an interface that is instantly familiar no matter where you're calling from.

Connecting to your calls couldn't be easier. Get your conversations started effortlessly with one touch dialing from the integrated calendar, right on the home screen. Speed dials provide quick access to people, rooms, or virtual meeting rooms. You can also search a directory to quickly connect to the right person or location. Once in a call you have easy access to share content, adjust camera views, change participant layouts and more to get the most out of your meeting.

You can position RealPresence Touch the way that you want, either standing taller or flipped over for a lower profile. No matter how it is placed, the interface will automatically rotate to the right direction. The sleek design includes a 10 inch touch display so you can see everything clearly, while staying compact enough to be out of sight during your meetings. Just a single cable carries both power and data to the device, keeping your table clean and clutter-free.

In addition to the flexible placement and integrated calendar, there are other ways RealPresence Touch can adjust for each meeting space. The background image can be customized to match your branding or provide information about the room. Plus, the home screen buttons and default screens can be selected by administrators to optimize the experience for their user base, resulting in fewer support calls.

# REALPRESENCE TOUCH

## SPECIFICATIONS

### PACKAGE INCLUDES

- RealPresence Touch and RJ45 (LAN) cable
- Set up sheet
- Printed warranty statement

### COMPATIBLE SYSTEMS

- RealPresence Group Series 300, 310, 500, 550 and 700
- RealPresence Immersive Studio
- RealPresence OTX Studio

### USABILITY

- Display: 10.1-inch screen
- Aspect ratio: 16 x 10
- Resolution: WXGA (1280 x 800)
- Designed with built in stand support. No external dock required
- Viewing angle: >= 178 degrees
- Positioning/placing angle: 30 degrees/65 degrees
- Tap and touch control to access call controls and administrative menus
- New intuitive user interface and home screen customization

### TECHNOLOGY

- Projected Capacitive Touch sensor that supports multi-touch and gesturing functionality
- Direct API command through network
- LCD panel with LED backlighting. IPS (In-Plane Switching)

### ELECTRICAL

- Power Over Ethernet (PoE), compatible with IEEE 802.3af type 1
- Low-power sleep mode

### WARRANTY

- One-year return to factory parts and labor
- 90-day software warranty
- Service contract required

### SUPPORT

- Minimum one year Poly+ support contract required

### PHYSICAL CHARACTERISTICS

- Physical dimensions: 252 x 175.8 x 11.25 mm (no stand)
- Micro-B USB 2.0 OTG (Supports a USB connection to a PC for content sharing)
- Type A USB 2.0 (Supports software updates)
- Mechanical locking mechanism (Kensington lock)
- Scratch-resistant and oleophobic glass
- Weight: 1 kg (approximate)

### OPERATING ENVIRONMENT

- Temperature: 0°C to 40°C
- Non-operating: -20°C to 70°C

### ALTITUDE

- Operating: 0 to 16,405 ft (~5000 meter) ASL
- Non-operating: 0 to 50000 ft ASL
